## Introduction

A passionate .NET Developer with hands-on experience in building microservices, RESTful APIs, and fullstack applications using .NET Core, NestJS, and NextJS. I have contributed to e-commerce platforms and social media systems, focusing on clean architecture, performance optimization, and maintainability. I thrive in collaborative environments and seek opportunities to grow in a dynamic, modern tech stack. My goal is to deliver robust, scalable solutions that bring real value to users.

## Experience

### Freelancer

12/2024 - 02/2025

Website: Rabito English

### Software Developer Internship

06/2024 - 10/2024

UTA Solution

## Project

### DevilCatStore

**Role:** Fullstack Developer

**Tech stack:** ASP.NET 8, Entity Framework, Bootstrap, PostgreSQL

**Description:** Developed a full-featured fashion e-commerce website. Implemented shopping cart, order processing, and an admin dashboard for product and user management. Focused on responsive UI using Bootstrap and robust backend using ASP.NET 8 and PostgreSQL.

**Go to GitHub** →
